Computer Science Engineering (2016-2020) – Visvesvaraya Technological University

Skills

- HTML5/CSS3
- JavaScript
- ReactJS
- Redux
- Restful APIs
- Responsive Web Design
- GitHub

Experience

System Engineer – (01/2021 – Present)

Tata Consultancy Services Ltd

- Developed interactive User Interfaces using React.js.
- Collaborated with the design team to implement responsive designs, ensuring optimal user experience across various devices.
- Taken part in integrating RESTful APIs to fetch and display data, enhancing application functionality.
- Contributed to the planning and execution of sprint cycles, meeting project deadlines consistently.
- Collaborated with back-end developers to ensure seamless integration of front-end and back-end systems.

Projects:

- Worked in an Emerging Tech Advisory Team in BFSI Domain.
- Developed screens for a food delivery and e-commerce application in vanilla JS.
- Developed pension calculator screens in React for a large UK Bank.
- Have worked on a React Micro-frontend application for Cards and Subscription management.
- Have worked on designing and developing screens for a PoC on International payment, including API sequencing and integration for one of the UK Bank.
- Apart from Frontend Web Development, I have also worked on multiple emerging technologies including AR/VR and Metaverse(Blender-3D modelling).
